

## VII. Unincorporated Areas and Profiles

This chapter provides information on unincorporated areas of King County, that is, areas outside of any city. Unincorporated areas cover 82 percent of King County's land area, but now contain less than 20 percent of King County's population and development activity. This year's Annual Growth Report features a new breakdown of unincorporated communities called "potential annexation areas" (PAAs). Under the Growth Management Act, urban services should be provided by cities, so it is expected that the entire Urban-designated area of King County will be annexed into existing cities within the next ten years. In this chapter are one-page profiles of ten large PAAs which comprise most of the remaining unincorporated Urban Growth Area. There is also a profile of Rural- and Resource- designated areas, which cannot annex into a city. Each profile, similar to the City Profiles in the previous chapter, contains a snapshot of demographic, economic, and development activity in the area. The ten major PAAs, annexing city and their year-2000 population are as follows:

Potential Annexation Area	Annexing City	2000 Population
East Federal Way	Federal Way	20,300
East Renton	Renton	7,400
Eastgate	Bellevue	4,600
Fairwood	Renton	39,400
Kent Northeast	Kent	23,600
Kirkland	Kirkland	31,700
Klahanie	Issaquah	11,000
Lea Hill	Auburn	8,200
North Highline	none	32,400
West Hill	none	14,000

In addition to the ten designated major PAAs, there are smaller scattered Urban unincorporated neighborhoods totaling about 22,000 people, some of which are also identified as PAAs. Outside the Urban Growth Area, there are Rural-designated areas with about 136,000 people. A map showing the ten major PAAs and other unincorporated areas is at the back of the book.

### Community Planning Areas – A Retrospective

Two tables in this chapter present data by "community planning area." Community planning areas were delineated in the 1970s to represent communities or groups of neighborhoods with common land use issues. The planning areas acted as a useful geographic breakdown of King County, especially for unincorporated areas information. Of the 16 areas covering the entire County, 13 were primarily unincorporated. Beginning with the second Annual Growth Report in 1984, community planning areas were the dominant geographic structure to report the demographic, economic, and development activity of the County. As late as 1989, more than 40 % of the King County population resided in unincorporated areas, and more than half the new residential growth was occurring in those areas. An important chapter of each Annual Growth Report, with Area Profiles, reflected this significance.

Now that the unincorporated population is smaller, the unincorporated community planning areas have lost much of their relevance. The new PAA geography is being used instead of community planning areas. For convenience, some information will continue to be presented by planning area, but many of the areas are now mostly incorporated.

The next chapter, Chapter VIII, contains two sets of geographic boundaries that future Annual Growth Reports will use: school districts and King County Council districts.

# Unincorporated King County Urban and Rural Areas

Unincorporated King County consists of both rural areas and urban areas outside city limits. Land uses include farms, forests, residential and some commercial uses. In the last decade, unincorporated King County experienced a net decrease of more than 160,000 people, bringing the 2000 total population to 352,000. The decrease was due chiefly to transfer of population into the cities through annexations and incorporations. Since 1990, eight cities have incorporated with a combined total of more than 150,000 people. Most of the unincorporated population, about 215,000 people, live in urban areas of western King County. Many of these urban communities are planned for timely annexation into adjoining cities. Ten of these urban communities are featured in the profiles starting on page 120.

# RURAL

## Unincorporated King County

Rural unincorporated King County covers central and eastern King County and Vashon Island – areas outside the Urban Growth Boundary. These areas are designated Rural, Agricultural or Forest Resource by the King County Comprehensive Plan. Uses include forest, farmland, woodlands and low-density residential. Urban services such as sewer service are not provided in Rural areas. Rural areas, which cannot be annexed into a city, cover the majority of King County's land area but contain less than one-tenth of the County's population. Rural unincorporated King County has grown very slowly since Growth Management took effect in the mid-1990s: less than five percent of countywide new residential construction and population growth occur in these areas.
